OR

Explain semantic ambiguity with illustrations of relevant cases

[10]

Q.6) Write a report on the conference on 'Women Empowerment' that you attended.

OR

Write a précis of the following passage.

[10]

There is no shortage of choice when it comes to buying an electric car these days. All major car companies offer at least one electric car, with many more models on the way. Besides the major companies, start-up companies have also joined in the race to electrifying our roadways. As the market and competition grows, prices will come down. What seemed like an unobtainable luxury available only for the rich will become a possibility for everyone. As technology continues to improve, and the charging station infrastructure continues to grow, electric cars are paving the way towards a more sustainable future. Electric vehicles reduce pollution from our roads. Currently the energy used to provide the electric charge is still largely fossil fuel generated electricity. The next step will be to convert all charging stations to electricity produced by a combination of solar, wind and water to maximize the sustainable energy available to us. This technology has already been developed, it just needs to grow and be put to use. Beam Global took an early lead in developing completely off-grid EV stations. These stations are essentially composed of solar panels and a battery, soaking up the sun in the daytime and storing the energy for use during all hours, including at night. The advances in solar technology offer an optimistic view that we are working our way towards a cleaner, sustainable form of transportation down the road.

Q.7) Write a notice of a Cultural programme to be held in your college premises.

OR

Translate the following passage either in Marathi or in Hindi.

[10]

We call anything beautiful that gives us pleasure, and that depends as much upon ourselves as upon what is outside us. Perhaps the majority of people find the sea beautiful when it is blue. If someone has lived in Italy as a child and has to live beside the grey, northern seas when he is grown up, he will think that the grey seas are ugly: and that nothing can be as beautiful as the blue Mediterranean. However, suppose a Scotsman who loves Scotland has to go and live in Italy. He might find the blue sea after a little while very uninteresting. Only when he went home and saw the grey sea again would he find the sea beautiful. We are made in different ways, and grey may be just as beautiful as blue, just as the cry of a baby may be found sweeter in someone's ears than the finest note of the finest singer that ever lived. Nothing is beautiful or ugly in itself, but thinking makes it so.

Q.8) Write an essay on one of the following

[10]

- a) Legal Literacy in India
- b) Advent of Artificial Intelligence: Boon or Bane?
