

Report on EBC Reader Demo Class

An **EBC Reader Demo Class** was conducted on **16 July 2026** for the students of DES Shri Navalmal Firodia Law College. The session was conducted by Mr. Avinash Pandey from EBC.

The session was organized to familiarize students with the features and effective use of the **EBC Reader – Platinum Edition**, a comprehensive digital legal library offering access to authoritative legal commentaries, textbooks, bare acts, journals, and other legal resources.

The resource person demonstrated the process of accessing the platform, searching for legal materials, using advanced search options, creating notes and highlights, bookmarking important sections, and accessing resources across multiple devices. Students were also introduced to features such as offline reading, personalized annotations, and cross-referencing tools that support legal research and academic learning.

The session was interactive, with students actively participating by raising queries regarding account access, research techniques, and the effective utilization of the platform for coursework and moot court preparation. The resource person addressed all the queries and encouraged students to make regular use of the EBC Reader for their academic and research activities.
